CG Docket No. 02-278

**SUPPLEMENT TO
PETITION FOR EMERGENCY CLARIFICATION**

The American Society of Association Executives (“ASAE”)¹ filed a Petition for Emergency Clarification with the Commission on July 25, 2003 seeking an emergency clarification of the rules governing unsolicited facsimile advertisements as they apply to tax exempt nonprofit organizations. ASAE seeks now to supplement its Petition for Emergency Clarification by adding as supporters of that Petition the following tax exempt nonprofit organizations and other interested parties, listed in Exhibit A. These organizations have members, donors, and other constituents collectively numbering in the tens of millions (one of them alone has twenty million dues-paying members); and the organizations frequently communicate via facsimile transmission. On behalf of these close to seven hundred tax exempt nonprofit organizations and others, ASAE respectfully reiterates its petition that the Commission

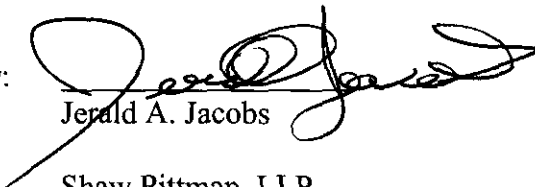

¹ The American Society of Association executives represents over 25,000 professionals that manage tax exempt nonprofit organizations and is considered the “association of associations.”

promulgate, on an emergency basis, a clarification that unsolicited facsimile communications are not prohibited when issued by or for tax exempt nonprofit organizations in pursuit of their recognized and authorized tax exempt nonprofit purposes. Without such relief, the enormously laudatory and valuable work of hundreds of thousands of membership organizations, charities, advocacy organizations, and other tax exempt nonprofit organizations would be unnecessarily interrupted or impeded.

Respectfully submitted,

By:
